Suggestions and Expectations

This curriculum unit can be used in a variety of ways. Each chapter of the novel study focuses on one or 2 chapters of *George's Marvelous Medicine* and is comprised of five different activities:

- Before You Read
- Vocabulary Building
- Comprehension Questions
- Language Activities
- Extension Activities

Links with the Common Core Standards (U.S.)

Many of the activities included in this curriculum unit are supported by the Common Core Standards. For instance the *Reading Standards for Literature, Grade 5*, makes reference to

- a) determining the meaning of words and phrases. . . including figurative language;
- b) explaining how a series of chapters fits together to provide the overall structure;
- c) compare and contrast two characters;
- d) determine how characters . . . respond to challenges;
- e) drawing inferences from the text;
- f) determining a theme of a story . . . **and many others.**

A principal expectation of the unit is that students will develop their skills in reading, writing, listening and oral communication, as well as in reasoning and critical thinking. Students will also be expected to provide clear answers to questions and well-constructed explanations. It is critical as well that students be able to relate events and the feelings of characters to their own lives and experiences and describe their own interpretation of a particular passage.

A strength of the unit is that students can work on the activities at their own pace. Every activity need not be completed by all students. A **portfolio cover** is included (p.7) so that students may organize their work and keep it all in one place. A **Student Checklist** is also included (p.6) so that a record of completed work may be recorded.

Themes which may be taught in conjunction with the novel include growing up, perseverance when facing difficult circumstances, families and family relationships, putting right to a wrong.

Author Biography

Roald Dahl

Few authors of children's books have been as prolific or successful as **Roald Dahl** (1916-1990). His novels have been read and enjoyed by countless children the world over and include such classics as *Charlie and the Chocolate Factory*, *Danny the Champion of the World*, *James and the Giant Peach* and *George's Marvelous Medicine*. Shortly before his death, the top five selling children's books in Great Britain were all authored by Dahl.

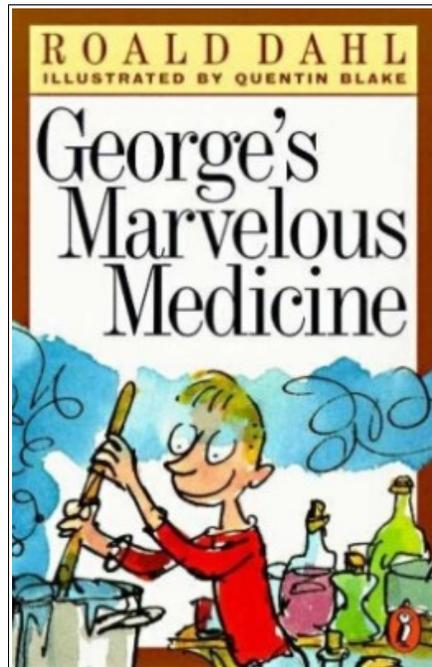

Born to Norwegian immigrants, Roald Dahl hailed from Llandaff, Wales. Despite losing his father when he was only four, Roald claimed to have had a most happy and eventful childhood. Although not a particularly good student, Roald did excel at athletics.

Dahl was married to the famous actress, **Patricia Neal**, for many years and they had five children together. The couple were, however, divorced after thirty years of marriage. Roald began his writing career as a short story writer, and didn't pen his first children's novel until 1961 – *James and Giant Peach*. This was followed by several more bestsellers.

Roald Dahl passed away in 1990 at the age of 74. In Great Britain the anniversary of Dahl's birthday on 13 September has become widely celebrated as **Roald Dahl Day**.
